UML Class Design: Quick Calc

Calculator

N/A

---

add()
subtract()
multiply()
divide()
zero()
one()
two()
three()
four()
five()
six()
seven()
eight()
nine()
equal()
decimal()

AdvanceCalculator

N/A

---

naturalLog()
log()
sin()
cos()

Converter

N/A

---

binary()
hex()

Functionality

N/A

---

enter()
clear()

Buttons

buttonLabel

---

click()

History

historyList

---

addHistory()
getHistory()
clearHistory()
printHistory()

Display

N/A

---

currentValue()
